ABIGIYA TEGENE

Software Engineering Student

Addis Ababa, Ethiopia | +251 906433726 | abtd.0809@gmail.com | github.com/Elisheba-101

PROFESSIONAL SUMMARY

Third-year Software Engineering student at Addis Ababa Science and Technology University (AASTU), seeking a software engineering internship in web development. Built a personal portfolio website with hand-written HTML5, covering semantic markup and an accessible contact form with client-side validation. Working knowledge of HTML fundamentals and Git/GitHub version control, developed through coursework and self-directed practice.

EDUCATION

B.Sc. in Software Engineering (in progress)

Addis Ababa Science and Technology University (AASTU) | Addis Ababa, Ethiopia | Expected graduation: 2029

Relevant coursework: web development with HTML5 and CSS3; programming fundamentals with JavaScript.

TECHNICAL SKILLS

Web development: HTML5 (semantic markup, forms and validation, tables) and CSS3 (styling, color systems, page layout)

Programming: JavaScript (fundamentals)

Version control: Git and GitHub (commit-per-feature workflow, push and pull)

Tools: Visual Studio Code and Live Server development preview

PROJECTS

Personal Portfolio Website

HTML5, CSS3, JavaScript (Canvas API) | 2026 | github.com/Elisheba-101

- Built a multi-page personal website presenting a profile, skills, projects and a working contact form.
- Implemented a contact form with client-side validation (required fields and phone-number pattern matching) connected to a thank-you confirmation page.
- Rendered a custom logo and a skills bar chart programmatically with the HTML5 Canvas API.
- Applied accessibility practices: semantic landmarks, labeled form controls and annotated abbreviations.
- Managed the code with Git and GitHub, committing one verified feature per iteration.
